Great Lakes Newsletter

Hello everyone!

I can't believe the holidays are already upon us! I wanted to send this newsletter out with the latest info for the New Year!

I attended the September Board of Directors meeting hosted by Central Director, Christina Calvert in Kansas City. After the usual business of approving meeting minutes and going through the agenda, the board watched a presentation on strategy building and marketing. Over the next few months the board will be working with professionals in the fields of strategy and marketing to bring a new look to PWC including a new logo, new designs for informational materials such as pamphlets, letterhead, and new member packets, and re-branding the organization. As part of this effort a member survey will be conducted over the next couple months; your input will be very important in helping us to move forward with meeting our goals, realizing our mission, and serving our members.

Reminder

Scholarship submission and 2012 Conference are around the corner. Please visit the website, www.pwcinc.org for more detailed information.
